Dear Attorney,

We are Korean firm that supplies metallurgical-grade silicone (UMG-Si) used in the production of electronics and photovoltaic cells around the world. We supplied UMNG-Si to Atlantic Sunergy Corp. in the U.S.A. At current, we are owed \$90,000.00 USD for supply of raw materials which are more than 90 days past due, and are contacting your firm to assist us in collecting this sizeable balance.

Please send us an engagement agreement for a one-third contingency fee, as we wish to move forward quickly to collect this amount. Once we have retained you, we will email you with a copy of the contract/purchase order and bill of lading to verify our fulfillment of this order, together with the contact information for you to demand payment.

Mr. Oy:

Attached please find my retainer agreement. Please sign it and send me the contract, purchase order, bill of lading and contact information for Atlantic Sunergy and I will issue a demand letter forthwith.

I look forward to assisting you.

Attachment: wiring-instructions.txt

Attorney Sincase,

Great news! Atlantic Sunergy received your email and has agreed to pay the full \$90,000 USD.

To honor our contingency agreement, we have asked the debtor to issue a check payable to you. Once you receive it, please deposit into your escrow, take your one-third fee, and wire the remaining \$60,000 USD to our account at the Royal Bank of Canada. See wiring instructions attached.

Thank you for your prompt attention to this important matter.
